

**Amendments to the Specification**

11/11  
2/13/07

Please insert the following ten paragraphs in the Brief Description of the Drawings after paragraph <sup>13</sup>14 and before the Detailed Description:

-- FIG. 3 is a perspective view of another resonator showing a dielectric material partially covering electrodes of the resonator.

FIG. 4 is a perspective view of a resonator having a performance tuning material dispersed within a base material.

FIG. 5 is a cross section through a tine of the resonator shown in Fig. 4.

FIG. 6 is a perspective view of a resonator having a performance tuning material including a layer entirely overlying a base material.

FIG. 7 is a cross section through a tine of the resonator shown in Fig. 6.

FIG. 8 is a perspective view of a resonator having a performance tuning layer that is an intermediate layer in the base material.

FIG. 9 is a cross section through a tine of the resonator shown in Fig. 8.

FIG. 10 is a perspective view of a resonator having a performance tuning material including a layer entirely overlying a base material and a layer that is an intermediate layer in the base material in combination.

FIG. 11 is a cross section through a tine of the resonator shown in Fig. 10.

Fig. 12 is a perspective view of a resonator having performance tuning material that is an intermittent layer along edges of the base material. --
